

Name: Justin Ho – Artbook (2026)

Years: 15 years old

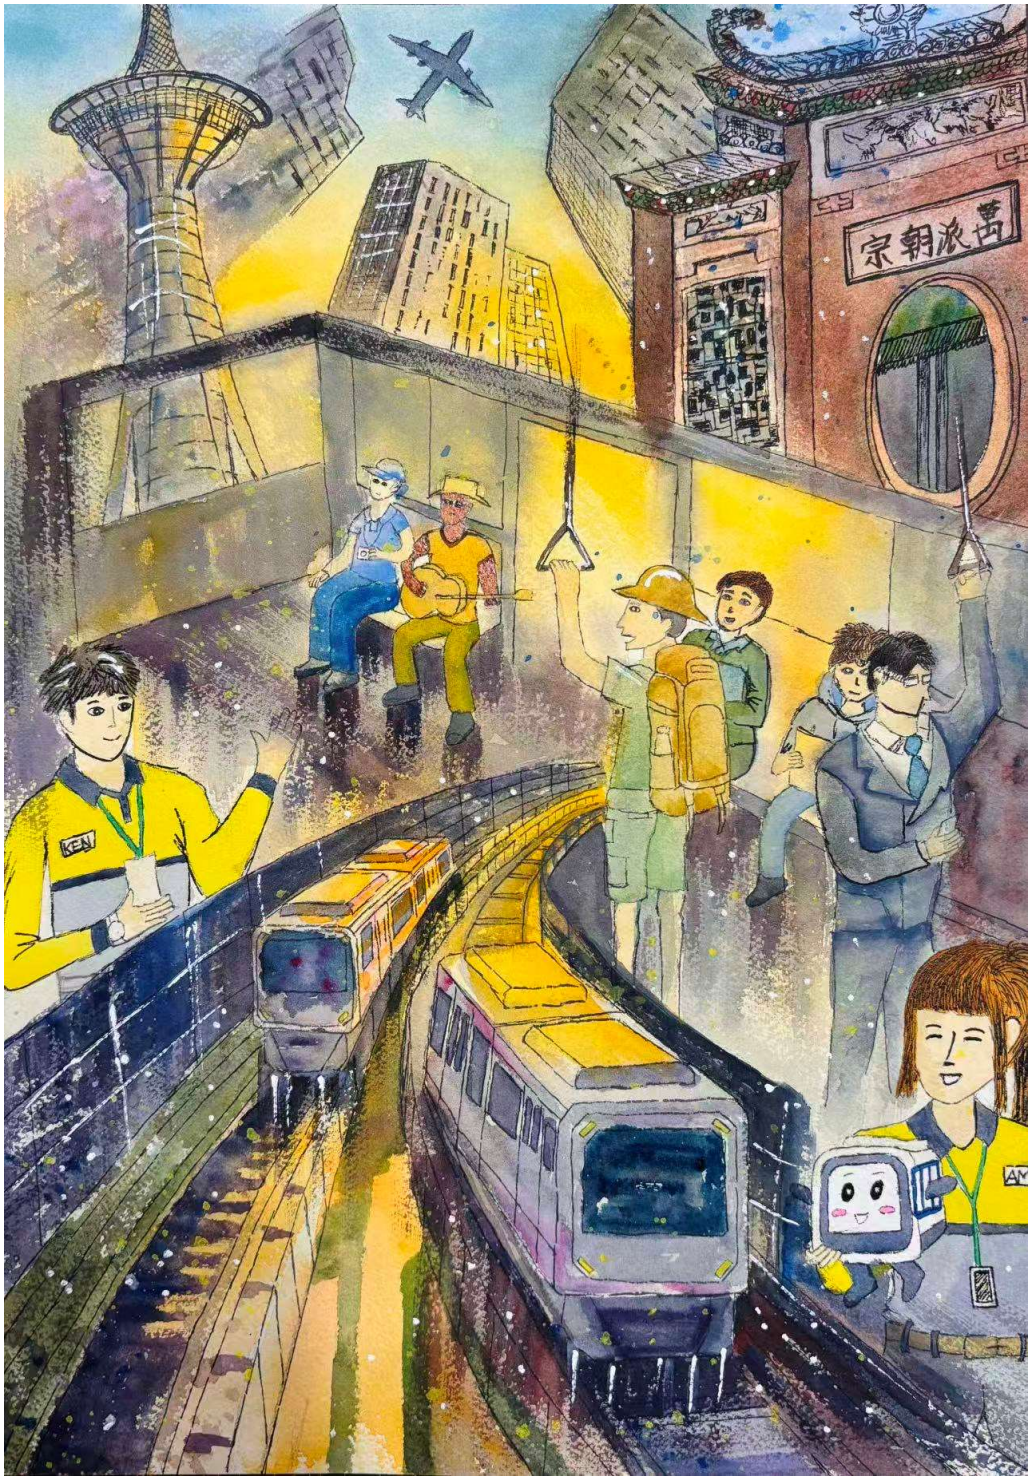
School: Pui Ching Middle School Macau

1) The Present and Future of Chinese Lion Dance

Chinese lion dance has a history of thousands of years and is classified as an intangible cultural heritage**.** We must do our best to preserve this culture, we can also explore innovative ways of performance for the future.

2) Macau Light Rapid Transit (39.4 x 54.6cm, Watercolors)

Macau is a very small city, but it has a world-class hotel clusters as well as collective public transportation systems like an international airport and the Light Rapid Transit (LRT). I really enjoy riding the LRT because it allows me to sightsee and explore this small city.



3) Macau Fireworks (29.7 x 42cm, Watercolors)

Every year, late September, Macau hosts the Macau International Fireworks Contest, where fireworks companies from different countries around the world come to compete. This event also attracts tourists from various places to come and watch. I like watching fireworks very much, so I recorded this scene.

4) The Last Supper 2.0 (39.4 x 54.6cm, Acrylic)

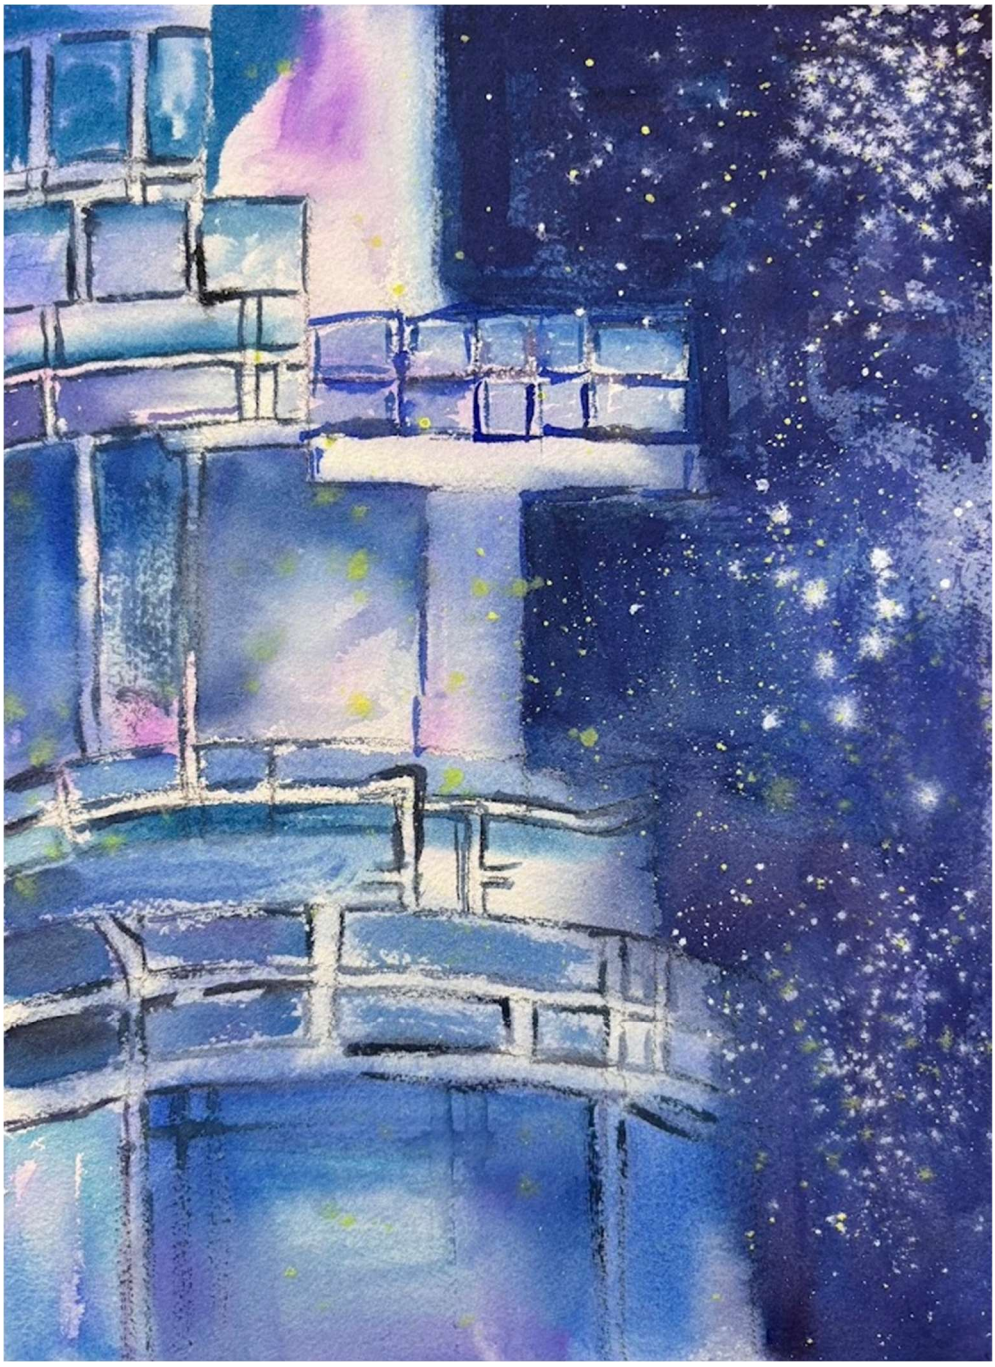
In 2025, I participated in a French painting competition. The competition rules required creating a derivative work based on a famous masterpiece by a master artist. I decided to use Leonardo da Vinci's *The Last Supper* for my creation, changing the faces of the twelve disciples into the works of various historical art masters. It is very interesting for me.

5) Believe (29.7 x 42cm, Watercolors)

The power of belief is truly great. I love drawing and I also love bowling. In doubles bowling, you must believe in your own strength as well as your teammate's, in order to achieve good results. I also believe that through my own hard work, I can successfully complete my high school education and move forward to my dreams.

6) Stars (29.7 x 42cm, Watercolors)

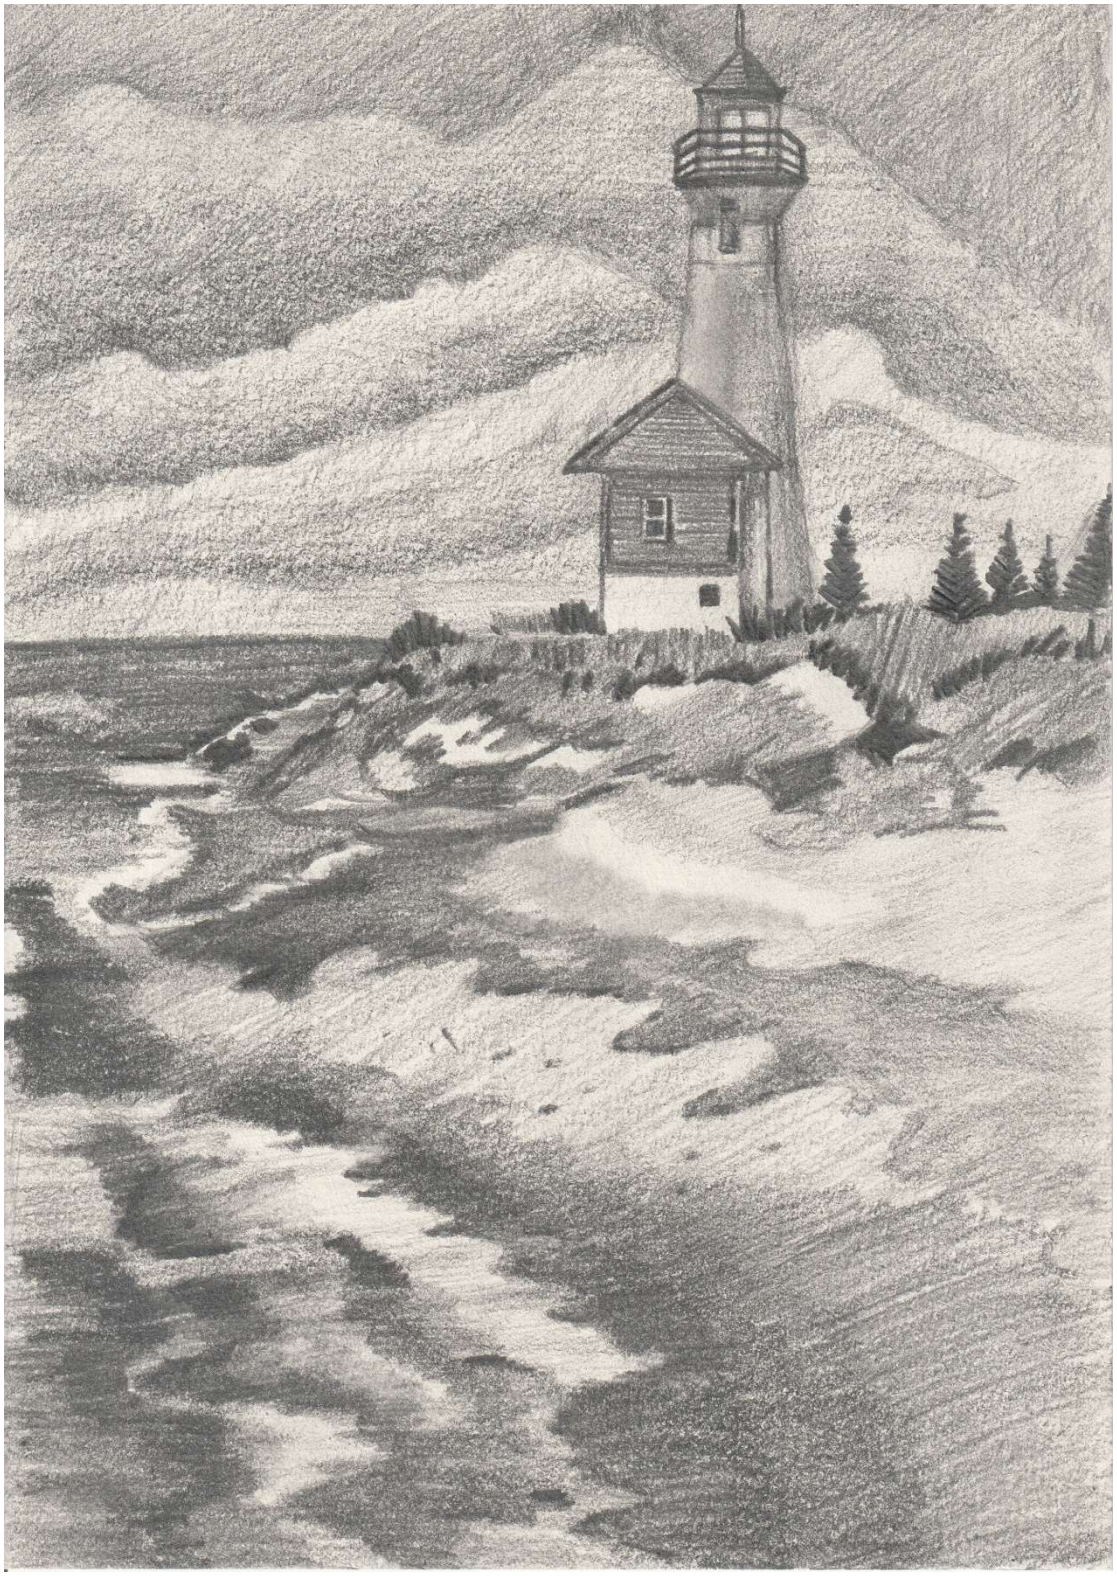
I love looking up at the stars in the sky. The stars exist in the galaxy, I believe galaxy has different celestial bodies and living organisms.



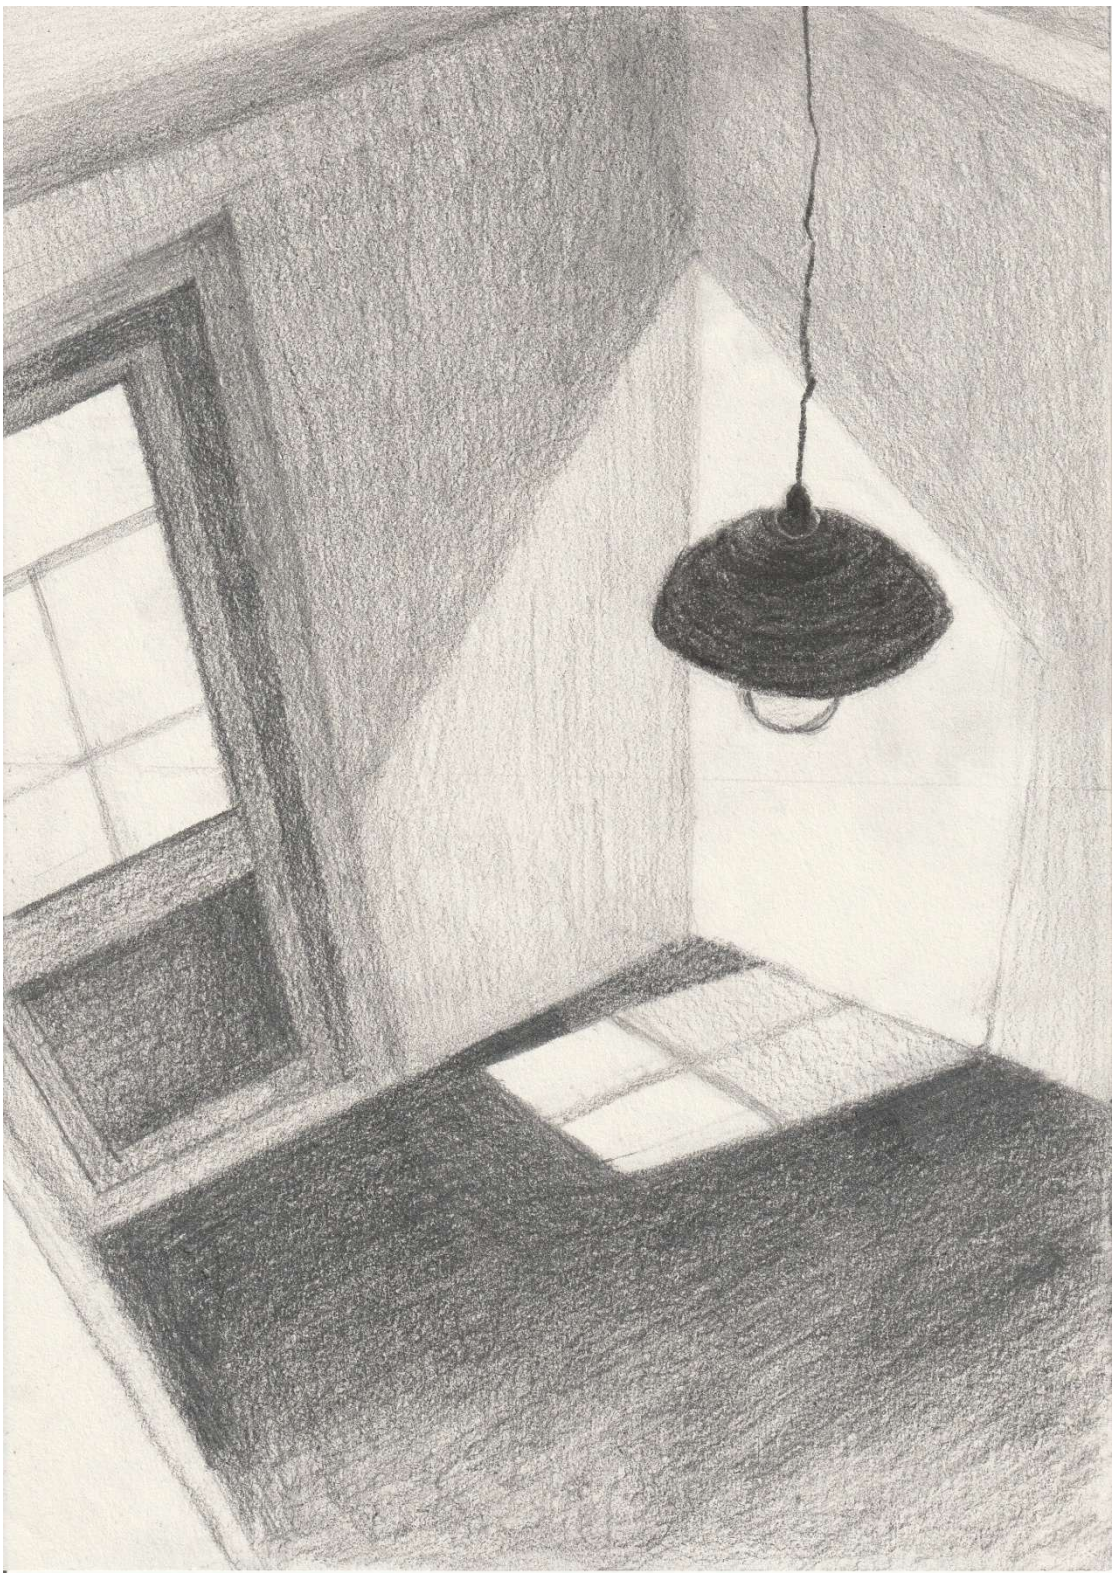
7) The Future of Macau (29.7 x 42cm, Watercolors)

8) Essay (29.7 x 42cm, Watercolors)

9) Macau old scenery (21 x 29.7cm, charcoal sketch)



10) The corner of the room (21 x 29.7cm, charcoal sketch)



11) Ocean (29.7 x 42cm, Watercolors)

The ocean is filled with various types of garbage, but fortunately, some volunteer groups in society arrange to clean up marine trash. In the future, underwater robots may help us clean up ocean trash.
